

# HONORED BY STATE OF INDIANA

Left to Right: Senator David Ford, Daniel R Baughey - President of HP Products  
Lieutenant Governor Joseph E. Kernan, Mayor of Hartford City – Joseph Castelo

Harold Precision Products Company, Inc. has been honored with the Half-Century Business Award. The Lieutenant Governor of Indiana, Joseph E. Kernan, presented the honor, which pays tribute to companies for outstanding professional achievements in the State of Indiana. HP Products was established in 1947 and was the originator of the TT Gauge (1/10" = 1") Model Railroad. With over fifty years of metal stamping experience, our company will continue to produce quality products for a technically advancing environment.

## NEW ASSIGNMENTS FOR FUTURE GROWTH

### **New Project Manager      Gayla Maddox**

HP Products is pleased to announce the employment of Gayla Maddox as Project Manager. "The ability to plan, direct and coordinate the various activities involved with designated projects will ensure that goals will be reached within appropriate time frames", stated Mike Baughey. Gayla's abilities to set priorities and organize information are valuable assets that will benefit the company and its customers.

### **Customer Service      Nita Jones**

Nita Jones has been assigned as HP's Customer Service Representative. "It's a positive step toward improving our commitment to meeting the needs of our customers. Nita has extensive knowledge and skills in all aspects of the metal stamping industry. Our goal is for customers to be able to get fast and accurate information from purchase orders to shipping dates," stated Dan Baughey.

### **Expansion of Packaging      Mark Baughey**

HP Products has recently restructured its Marketing and Sales Department due to the increased demand for packaging and clip products. Sales in packaging and clips have steadily increased over the last few years from 10 percent to 30 percent of the overall business. The division of metal stamping and packaging products will allow diversification and, more importantly, improve communications with and service for existing customers.
